Before class

Open the presentation and rhythm lab in separate tabs. Test Play and Stop, beginning with sound off. Preview the three official media sources; pause at the moment Gordon chooses. Download and unzip the offline packet while online.

If a clip fails

Switch to the original rhythm lab immediately. No account is needed to continue the lesson. External streaming services can change availability; do not spend class time troubleshooting.

10:00 to 10:10 / SCREEN 01

Look again. Notice more.

Keep the recap to one change and one observation.
