

The next screen, ready.

10:00 AM to 12:50 PM • SCI L104

[Download the cue-sheet PDF](#)

At 9:45: test display and sound. Sign in to HBO Max and Netflix on the classroom machine with the instructor login (students never need one), cue A Minecraft Movie to Steve's introduction, The Last of Us S1E1 to its start and Arcane S1E1 to its start, play ten seconds of each. Then open media.html and press play on the three public YouTube clips. Captions on for the streaming scenes. Keep the professor guide off the projector. Chrome or Edge. Students open the student hub on their own devices; internet is needed for the clips and the shared boards; notes work locally.

10:00 TO 10:10

The spine: three worlds that exist twice

Open classroom.html screen 1. Nothing plays yet. HBO Max and Netflix are signed in and cued from the 9:45 preflight; media.html is open in a second tab with the three public clips loaded and paused.

10:10 TO 10:42

Minecraft: the game trailer, then the film itself

At 10:10 play the Minecraft game trailer MmB9b5njVbA (1:00). Then A Minecraft Movie on HBO Max from Steve's introduction; stop before the Nether section, four minutes at most. If HBO Max does not play within a minute, play the Warner Bros. Full Movie Preview -AKxSyHOySk from 1:20 and stop at 5:02. Then screen 3 for the argument.

10:42 TO 11:06

The Last of Us, season 1 episode 1: the cold open

At 10:42 play The Last of Us S1E1 on HBO Max from the start (the 1968 talk show); stop at the title card, four minutes at most. No game footage. If HBO Max fails, tell Gordon and put screen 4 up; the block runs as discussion of the scene as described.

11:06 TO 11:16

Ten-minute break

Screen 5. Cue Netflix to Arcane S1E1 at its start and Awaken zF5Ddo9JdpY at 0:00. Confirm the team boards can open on the projector for 12:15.

11:16 TO 11:46

Riot: Awaken, then Arcane's first scene

At 11:16 play Awaken in full (3:28). Then Arcane S1E1 on Netflix from the opening on the bridge; stop at the first scene transition, four minutes at most. If Netflix fails within a minute, play the official trailer fXmAurh012s (2:44). Then screen 7.

11:46 TO 12:00

Teams: the three questions, one pair

Screen 8 on the projector. Students write in notes.html#three. At about 11:56 Gordon hears one answer per team; no screen change.

12:00 TO 12:15

Engine craft bridge: Clair Obscur

At 12:00 play Clair Obscur ejgW-upPMgk (2:22, Sandfall Interactive upload; the IGN copy asks for a sign-in, do not use it). Then screen 9, the engine board. GTA VI QdBZY2fkU-0 only if Clair Obscur fails, never in addition.

12:15 TO 12:45

Mood board: last hands on it with you in the room

Open team-studio.html, then put each team's real shared board on the projector in turn, about seven minutes each. Quiet cues for Gordon at 12:22, 12:29, 12:36 and 12:43.

12:45 TO 12:50

Exit ticket, two lines

Open notes.html#exit. Collect paper or exported notes at the door. End at 12:50.

If a clip fails

Try the direct link once. After one minute: for the three public YouTube clips, ask students to open the clip on their own devices from the media page and describe it out loud; for the HBO Max and Netflix scenes, switch to the listed public backup (Minecraft preview, Arcane trailer) or the prepared discussion for The Last of Us. Never ask a student for a subscription login. Never play anything that is not on the media page.

Dates to repeat if asked

Mood-board file: tomorrow, Thursday October 1, 5 PM Pacific, to Drive. Team presentations: Monday October 5, five minutes, everyone speaks. Homework is ungraded: three sentences on one thing your project can only do because it lives in an engine.
