

Frame rate is a voice

When the drawing rate changes, who changed, and what did it tell you before anyone spoke?

10:00 • Watch nine minutes, no notes

Ones and twos

Miles on twos, 12 drawings a second. Peter on ones, 24. Same shot.

10:12 • Lens one: how often does the drawing change?

Dots, panels, slipped color

Ben-Day dots. Misregistered ink. Panels inside the frame.

10:24 • Lens two: the comic devices

Motion without blur

Pause any fast move. What did they draw instead of blur?

10:34 • Lens three: smear frames

The calling card

Which three devices would let you name this film from one frame?

10:40 • Trailer, 0:00 to 2:40

Three stations

A 0:00 to 3:00 · B 3:00 to 6:00 · C 6:00 to 9:00. One rate change. One device. One cheaper choice and its cost.

10:48 to 11:06

Ten-minute break

Back at 11:16.

11:06

Kaiju No. 8

Where does the drawing rate change, and what is it buying each time?

11:16 • Trailer, 1:39, twice

Without the money

2D characters over 3D destruction. The seam left visible. Chosen at storyboard.

11:30 • What is portable to your prototype?

How does an animation choice make character?

One sentence each, evidence attached. Homework, ungraded: one rate change in an animation you love, two lines for Wednesday.

11:46 to 12:06

Your world, made together

Say your palette out loud. Show me the one image you cannot justify. Name what is missing.

12:06 to 12:45 • File due Thursday, 5 PM

Two lines before you leave

One term you learned today and where you saw it. One thing you are still unsure of.

12:45
