

STORYBOARDS & ANIMATICS

Make time visible

The Care Between

A fictional, AI-generated teaching example

What moved?

U S C

What is blocked?

What will be true next session?

Two minutes per team. Blockers stay on the board.

10:15-10:22 / FIRST LOOK

A mood.
An action.
A change.

What can you actually see?

Generated example / The Care Between

A STORYBOARD, IN TIME

01 / Dry soil

4 second hold

Silent / generated images

Which decisions are yours?

Assisted tools

Denoise. Upscale.

Artist-directed generation

A person shapes the work.

Prompt-only output

The model determines expression.

Copyright depends on human expressive contribution.
A workflow category alone does not decide it.

What does each frame let you know?

A / Information withheld

B / Context revealed

A isolates touch and texture. B adds context.
The intended reading determines the useful frame.

A PANEL IS A PRODUCTION DECISION

Light: warm daylight / No camera move / Generated example

03 / Water

ACTION

Water reaches soil.

CAMERA

Medium close. Locked.

TIME

4 seconds.

INTENT

See care become action.

Same pot. A visible change.

01 / Before

08 / After

Stable setting. Changing light. Repeated care. Growth.

30 seconds of change

01 4s / Dry soil

02 3s / A test

03 4s / Water

04 3s / Still waiting

05 4s / Night

06 3s / Care repeats

07 4s / Growth

08 5s / A changed room

Your critical moment

8-12 panels.

One idea about time passing.

Action / Camera / Time / Intent

Include lighting and key visual choices.

Rough is useful when the decision is clear.

10:53-11:03 / FULL BREAK

Ten minutes.
A real pause.

10:00

One scene. One test.

Finish the boards.

Try the timing.

Show the actual work.

11:03 U

11:18 S

11:33 C

11:48 Common fixes

Suggested rotation. Confirm the order in the room.

Can we read the scene?

Action

What changes?

Time

What proves it passed?

Point to a panel. Revise one beat. Retest.

Camera

What can you see?

Intent

What does it mean?

The next visible step

Oct 12

Next class

Oct 14

Present the 30-second prototype

Oct 15 / 5 PM Pacific

Prototype file due

Oct 8–9: fall recess.

No work due or expected.

Final: 2–3 minute visual narrative. Minimal dialogue. Environmental text only.
