FOUR ROLES. SHARED CREATIVITY.

01 Producer

Coordinates the plan, schedule and communication. Makes sure every voice is heard, decisions are recorded, and the team knows its next step.

02 Design Lead

Guides the visual style, composition, color and consistency. Helps turn references into a coherent visual language the whole team can build.

03 Technical Lead

Coordinates the build, troubleshooting, file organization, exports and Tech Checks. Helps the team choose a workable process and keeps backups ready.

04 Story & Editorial Lead

Shapes the narrative, pacing, sound and final sequence. Helps the audience understand the intended feeling and the passage of time.

Rank each role exactly once: 1 = most preferred, 4 = least preferred. These are starting responsibilities, not a hierarchy.

MAKE IT READY.
