

Alex's cue sheet

September 23 | 10:00 AM-12:50 PM | SCI L104

Before class

At 9:45: open the student hub, test display and sound, check the three direct video links, open the Naughty Dog article and reset the local lab. Chrome or Edge. At 9:55: hide private notes and unrelated tabs. Ensure the teams can access their actual shared boards.

10:00-10:12

What a room lets us know

Open lab.html in Observe mode, reset it, and leave evidence labels off. The lab is an original teaching scene, not footage from a course game.

10:12-10:48

Hades II and Edith Finch

Hades II 0:00-2:37, optional muted replay 0:38-1:18. Edith Finch 0:50-5:00. Stop at the listed out points. Then open lab.html. Never use the short Critical Role promo as world-building footage.

10:48-11:06

A space, an inference, a test

Keep notes.html open. Notes save locally when the browser permits; students should download their text before leaving. Do not create a new submission folder or assignment.

11:06-11:16

Ten-minute break

Pause all players. Cue HBO trailer 0:00. Open the creators' illustrated article using media.html. If it will not load, use the local comparison diagram.

11:16-11:46

The Last of Us: a world across media

Use the accessible HBO trailer and the creators' article. The PS5 features video and Bill's Town gameplay both report LOGIN_REQUIRED: they are optional references, not required play cues. No classroom login is needed for the core plan.

11:46-12:10

One World, Two Media: finish one argument

Display assignment.html. Keep the 3-5 minute length and September 24, 5 PM PT deadline unchanged. Help with access and playback; leave interpretation and grading to Gordon.

12:10-12:15

Five-minute reset

Set a silent five-minute timer. No announcements during the team block unless necessary.

12:15-12:45

Mood boards: thirty minutes together

Thirty uninterrupted minutes. Help teams open and save the real shared board. Quiet six-minute conference cues for Gordon at 12:16, 12:22, 12:28 and 12:34. Silent save cue at 12:44. Do not add a compulsory presentation.

12:45-12:50

What changed, and what comes next

Help students export notes. Confirm the two upcoming dates. End at 12:50.

Recovery

One attempt at a failed clip, one minute maximum. Use the original workshop and the comparison diagram. The core plan does not require a signed-in Last of Us video. Protect team work at 12:15-12:45.

Dates

Video September 24 at 5 PM Pacific. Board October 1 at 5 PM Pacific. Presentations October 5, five minutes and everyone speaks.
