

YOUR WORLDS. OUR ROOM.

12

voices worth
hearing.

Show a choice.
Support someone else.
Leave connected.

10:00-12:50 / SCI L104

Use the class link Gordon shares.

WHO DO YOU WANT TO BUILD WITH?

10:30-10:38 / Private choices for your next project team.

Select your own name. Choose a first-choice teammate from the other eleven students, then a different second-choice teammate. Rank all four roles once: 1 is most preferred; 4 is least preferred.

01 Producer

Coordinates the plan, schedule and communication. Makes sure every voice is heard, decisions are recorded, and the team knows its next step.

02 Design Lead

Guides the visual style, composition, color and consistency. Helps turn references into a coherent visual language the whole team can build.

03 Technical Lead

Coordinates the build, troubleshooting, file organization, exports and Tech Checks. Helps the team choose a workable process and keeps backups ready.

04 Story & Editorial Lead

Shapes the narrative, pacing, sound and final sequence. Helps the audience understand the intended feeling and the passage of time.

Your choices are private to Gordon. You receive a thank-you, not a public ranking. Gordon reviews the recommendations and announces three teams of four at 12:20. Starting roles are responsibilities, not a hierarchy; everyone contributes creatively.

If the link is unavailable, ask for the private paper preference sheet.

SHOW THE CHOICE. NAME THE EFFECT.

Your mood board: a game involving collaboration. The room is ready to listen.

CURRENT TEAM	TECH CHECK	PRESENTATION
Team 1	10:38	11:25
Team 2	10:46	11:36
Team 3	10:54	11:47
Team 4	11:02	11:58

Your five-minute story

First minute: name your world and the collaboration it asks for. Next three: all three voices connect selected images to palette, tone, composition and player experience. Final minute: land the clearest promise and ask one question.

Feedback for the three OTHER teams

During each other team's four-minute feedback window, use the class link and select your own name. Submit all three prompts: **I Like** a visible detail and its effect; **I Wish** for something that would help me understand; **What If** offers one small test. Encouragement and additional critique are optional.

Submit once per other team, three times in total. Wait for each confirmation. Do not review your own team. Your named responses go privately to Gordon. Discuss choices in the work, not the people. Presenters: name one next thing to try.

Time for help

Rehearse 10:18-10:30. While one team checks its setup, the others rehearse. Retest 11:10-11:15; break 11:15-11:25. If equipment fails during your presentation, we pause the timer and use your backup.

Tech check and feedback are support, not new grading criteria.

MAKE TIME VISIBLE.

At 12:20: three teams of four. The same prompt carries your prototype into your final.

A prototype tests one idea

The passage of time. A 30-second exported clip testing one idea. Presented October 14; file due October 15 at 5 PM PT. 20% of final grade.

A test that does not work can still teach you something. Explain the idea and point to the frames that tested it. Do not try to make a tiny version of the whole final.

A final develops that idea

The passage of time. A 2 to 3 minute visual narrative; minimal dialogue, environmental text only. Cinematic/animated, interactive or hybrid. Due December 3 at 5 PM PT. 30% of final grade.

Before you leave

Exchange contact details, choose a Discord channel and agree a first meeting. Name one testable idea, one first task and one support need. Each person contributes a strength and a skill they want to learn.

Your mood board assessment is unchanged

20 to 40 images; five-minute presentation; everyone speaks. Four criteria at five points each: Visual Cohesion; Curation & Justification; Color & Palette Development; Presentation & Accessibility. 20 points total; 20% of final grade; one shared team grade. File was due October 1, 5 PM PT.

Use the existing full course rubrics for scoring. Ask Gordon before a substantive change to submitted work. There is no new deadline today.

Wednesday, October 7

Storyboards and animatics. Bring your team's question.
