

The next screen, ready.

10:00 AM to 12:50 PM • SCI L104

[Download the cue-sheet PDF](#)

At 9:45: test display and sound, open media.html and press play on all six clips on the classroom machine (they all work without a login; if one asks you to sign in, tell Gordon), captions on, and keep the professor guide off the projector. Chrome or Edge. Students open the student hub on their own devices; internet is needed for the clips and the shared boards; notes work locally.

10:00 TO 10:12

The spine: three worlds that exist twice

Open classroom.html screen 1. Nothing plays yet. Have media.html open in a second tab with all six clips loaded and paused at 0:00.

10:12 TO 10:48

Worked pair: Riot, Awaken then Arcane

At 10:12 play Awaken zF5Ddo9JdpY in full (3:28), sound on, captions on. Then the Arcane trailer fXmAurh012s in full (2:44). Then screen 2 on the projector for the three questions. Replay any twenty seconds Gordon or a student names.

10:48 TO 11:06

Activity: the three questions, one pair per team

Screen 3 on the projector (the three questions). Students write in notes.html#three. At about 11:00 Gordon hears one answer per team; no screen change.

11:06 TO 11:16

Ten-minute break

Screen 5. Check media.html still has the Minecraft trailers loaded. Confirm the team boards can open on the projector for 12:15.

11:16 TO 11:46

Second text: Minecraft, and closing the trio

At 11:16 play the Minecraft game trailer MmB9b5njVbA (1:00), then the film trailer wJO_vIDZn-I (2:30) back to back. Then screen 7 for the argument. No answer is expected on the projector; leave the question up.

11:46 TO 12:15

In-engine cinematography: Clair Obscur and GTA VI

At 11:46 play Clair Obscur ejgW-upPMgk (2:22, Sandfall Interactive upload; the IGN copy asks for a sign-in, do not use it). Then GTA VI QdBZY2fkU-0 (1:30). Then screen 9, the engine board. If Sandfall's upload fails, Bandai Namco Europe's oecZmLXqXk is the same cut.

12:15 TO 12:45

Mood board: last hands on it with you in the room

Open team-studio.html, then put each team's real shared board on the projector in turn, about seven minutes each. Quiet cues for Gordon at 12:22, 12:29, 12:36 and 12:43.

12:45 TO 12:50

Exit ticket, two lines

Open notes.html#exit. Collect paper or exported notes at the door. End at 12:50.

If a clip fails

Try the direct link once. After one minute, ask students to open the clip on their own devices from the media page and describe it out loud. Never play anything that is not on the media page.

Dates to repeat if asked

Mood-board file: tomorrow, Thursday October 1, 5 PM Pacific, to Drive. Team presentations: Monday October 5, five minutes, everyone speaks. Homework is ungraded: three sentences on one thing your project can only do because it lives in an engine.
